

CTL-S700 series

Safety controller for mobile machines

Applications

- Mobile Cranes
- Truck-mounted Cranes
- Knuckle Boom Cranes
- Forestry Equipment

Special Features

- For use in safety-critical applications acc. to:
 - IEC/EN 61508 Parts 1-7:2015 SIL 2
 - EN ISO 13849:2015 PL d
 - EN 62061:2005 + AC:2010 + A1:2013 + A2:2015 SILCL 2
- 32-Bit Tri-Core processor
- up to 64 inputs and 56 outputs
- 4 CAN interfaces
- up to 2 Ethernet interfaces
- Programmable according to IEC 61131-3 with CODESYS 3.5

CTL-S701 controller

Description

The CTL-S700 safety controller lifts safety to new heights! Especially developed for demanding tasks of mobile machines, the user is offered countless application possibilities.

The controller is ready for use in safety-critical applications and offers many interfaces and I/Os for safety-relevant machine control tasks.

With an IP66/67 protection rating, a robust aluminum cast housing and high shock- and vibration-resistance, CTL-S700 is perfectly equipped for use in harsh environments.

Technical Specifications

CTL-S700 series						
Processor	Aurix TC299TX, 300 MHz, Tri-Core lockstep CPU, 32 bit					
Flash	8 MB, internal/ optionally 64 MB external					
SRAM	2.7 MB, internal					
FRAM	32 kB, external					
Programming interface	CoDeSys 3.5 SIL 2					
I/O and Interface	Variant	S701	S702	S703*	S704	S705
Order #		83902699	83902700	--	83902701	83902702
Analog input	Safety	24	24	24	16	8
• 12bit, accuracy <1% FS in full temperature range. • Configurable via software to • 4...20mA • 0...10V • 0...32V						
Digital input	Safety	22	18	18	10	10
• Configurable via software to • Digital input high-side • Digital input low-side						
Digital input HSC	Non-safety	12	12	12	8	8
• Configurable via software to • Digital input high-side • Digital input low-side • Frequency input: Pulse range 0.1Hz-15kHz Input voltage threshold 0.3V-4-5V						
Digital input	Non-safety	6	6	6	4	4
• Configurable via software to • Digital input high-side • Digital input low-side • Resistor input: Input: 0-10kΩ Accuracy: ±2% FS in full temperature range						
Digital output 4A@24V	Safety	18	16	12	10	6
• Configurable via software to • High-side MOSFET • PWM Output frequency: 50-1000Hz						
Digital output 4A@24V	Safety	24	20	12	12	6
• Configurable via software to • DO high-side MOSFET • PWM Output frequency: 50-1000Hz • Digital output with constant current
