

Product Change Notification

LCD-unit 4*20 St. 8mm, c/w

PCN-no. WMC-PCN-2023-1201-12537_LCD 4x20
Announcement date December 5, 2023
Subject LCD 4x20 discontinuation and replacement

Reason for change The LCD 4x20 has been discontinued by the supplier.

Delivery of new parts from

- Consoles will be upgraded with the new LCD and shipped starting January 2024
- LCDs as spare parts are still available until June 30, 2024 with subject to prior sale.

Description A functional replacement was found on the market and has been tested successfully. Mechanically and functionally, the new LCD is a 1:1 replacement, except for the contrast control. Testing showed that the new contrast control has almost no effect when the contrast voltage is set correctly at room temperature. For this reason, the contrast control is switched off and the new LCD can therefore be used as a replacement part for the original LCDs without any additional measures.

Measures As part of the technical changeover, new part numbers for the LCD have been assigned and the part numbers previously used for replacement requirements are hereby discontinued.
