

# Product Discontinuation Notification

Certified gantry crane overload protection system

**PDN-no.** WMC-PDN-2023-0801  
**Announcement date** July 04, 2022  
**Subject** Discontinuation of the certified gantry crane overload protection system

**Reason for discontinuation** In the course of the discontinuation of the c/qSCALE S6 (06'2022) and the fSENS trueSafety sensors (01'2023), the certified gantry crane overload protection system based on the cSCALE S6 will also be discontinued.

The certificate of the system was valid until 31 of January 2023 and will not be extended.

**Last time Delivery** No longer available

**End of Service** June 8, 2025

**Description** There is no replacement for the two cSCALE S6 devices listed below within the scope of former use with the certified gantry crane overload protection software!

WMC will continue to provide contractual warranty and technical support for the previously delivered overload protection system through the date of the EOS.

Based on the ELMS1 safety controller, a new gantry crane overload protection system with redundant force sensors is available. A possible use has to be checked together with the WMC sales department.
